Kata Kunci : Kecerdasan Interpersonal, Permainan Som-som Aneuk.

Kecerdasan interpersonal merupakan kemampuan seseorang dalam berinteraksi dan memahami perasaan orang lain, fokus kecerdasan interpersonal melalui permainan som-som aneuk yaitu kemampuan berinteraksi anak dalam memahami aturan, bermain dengan teman sebaya dan bekerjasama. Bagaimana mengembangkan kecerdasan interpersonal anak usia dini melalui permainan tradisional som-som aneuk di PAUD Nurul Hidayah menjadi kajian dalam penelitian ini. Tujuan penelitian ini adalah untuk mengetahui perkembangan kecerdasan interpersonal anak usia dini melalui permainan som-som aneuk di PAUD Nurul Hidayah. Penelitian ini menggunakan pendekatan penelitian tindakan kelas yang dilakukan dalam 2 siklus. Subjek penelitian ini adalah anak kelompok B, berjumlah 8 orang yang terdiri atas 2 orang laki-laki dan 6 orang perempuan. Data dikumpulkan melalui observasi dan unjuk kerja, dalam mengembangkan kecerdasan interpersonal peneliti menstimulasi dan memotivasi anak dengan memberikan contoh cara bermain som-som aneuk, lalu anak bermain sesuai dengan aturan yang diperkenalkan. Hasil penelitian menunjukkan bahwa kecerdasan interpersonal anak melalui permainan som-som aneuk pada siklus I, anak yang mulai berkembang berjumlah 3 orang, berkembang sesuai harapan berjumlah 2 orang dan berkembang sangat baik berjumlah 3 orang. Perkembangan kecerdasan interpersonal siklus II, anak yang mulai berkembang berjumlah seorang, berkembang sesuai harapan berjumlah seorang dan berkembang sangat baik berjumlah 6 orang. Disimpulkan bahwa melalui permainan som-som aneuk dapat mengembangkan kecerdasan interpersonal anak usia dini. Sebaiknya untuk mengoptimalkan perkembangan anak, guru dapat memperkenalkan permainan-permainan tradisional lainnya kepada anak sejak usia dini.

##### ABSTRACT

Hanum, Misna. 2018. Developing Interpersonal Intelligence of Early Age Children through Traditional Game Som-Som Aneuk in PAUD Nurul Hidayah Sub-District Darussalam, Aceh Besar Regency. Thesis, Department of Early Childhood Teacher Education, Faculty of Teacher Training and Education. University of Syiah Kuala.

---

children of group B, amounted to 8 people consisted of 2 male and 6 female. Data collected through observation and performance, in developing interpersonal intelligence, researcher stimulate and motivate the children by giving examples of how to play som-som aneuk, and then children play according to the rules given. The results showed that the children's interpersonal intelligences through the game som-som aneuk in cycle I, children who began to grow amounted to 3 people, developed as expected amounted to 2 people and developed very well amounted to 3 people. The development of interpersonal intelligence in cycle II, children who began to grow amounted to one people, growing as expected amounted to one people and growing very well amounted to 6 people. It was concluded that through the game som-som aneuk could develop early age children's interpersonal intelligences. It is better for teacher to optimize the children development by introduce other traditional games to the children from an early age.
